Bandler, W, 267–298
Chiang, W-L, 437–466
Console, L, 157–177
Ding, L, 179–193
Di Nola, A, 259–265
Dong, W-M, 437–466
Gaag, LC van der, 239–258
Hawkes, LW, 267–298
Hunter, D, 87–114
Ichihashi, H, 143–156
Iwai, S, 219–237
Katai, O, 219–237
Li, Z-N, 59–85
Lowrance, JD, 299–353
Magrez, P, 35–57
Martin-Clouaire, R, 195–217
Mukaidono, M, 179–193
Paris, JB, 1–34
Pedrycz, W, 259–265
Rundensteiner, EA, 267–298
Schott, B, 359–382
Sessa, S, 259–265
Shen, Z, 179–193
Shenoy, PP, 383–411
Smets, P, 35–57
Strat, TM, 299–353
Tanaka, H, 143–156
Torasso, P, 157–177
Turksen, IB, 121–142
Vencovska, A, 1–34
Whalen, T, 359–382
Wong, FS, 437–466
Yager, RR, 417–435

Aggregate production planning, 130–141
Approximate reasoning
with interval-valued fuzzy sets, 121–142
and prototypical knowledge, 157–177
ATMS (assumption-based truth maintenance system), 219–237
Belief functions, 307
Belief plausibility, pluralistic evaluation of, and its application to nonmonotonic reasoning, 219–237
Causality and maximum entropy updating, 87–114
Causal reasoning vs. diagnostic reasoning, 104–108
Certainty factor model, 240–241
Consistent bounds, 437–439, 455–459
Constraint propagation of label sets, some extensions of, 417–435
Counterfactuals, 92–104
Default constraints, 426–428
Default knowledge in constraint propagation of labels, 428–432
Dempster-Shafer theory of evidence
and evidential reasoning, 307–313
Jeffrey-like rules of conditioning for, 143–156
for real-world image analysis, 59–85
Entropy, maximum
application to inexact reasoning, 1–34
updating, causality and, 87–114
Epistemic necessity, possibility, and truth, 35–57
Evidence fusion, 437–466
Evidential analyses, explaining, 299–353
Evidential language for uncertain and nonmonotonic reasoning, 397–406
Evidential reasoning
for a pyramid vision system, 59–85
generating explanations within, 314–323
overview, 307–314
Expert systems
and applicability of maximum entropy to inexact reasoning, 1–34
and explanation generation, 299–353
prototypical knowledge-based, and approximate reasoning, 157–177
rule-based, 239–258
a valuation-based language for, 383–411
Fuzzy knowledge-based systems, tools for dealing with imprecision and uncertainty in, 35–57
Fuzzy label sets and constraints, 424–426
Fuzzy logic, 185–192, 195–217, 359–382
Fuzzy modus ponens, interval-valued, 126–130
Fuzzy Prolog, fundamentals, 179–193
Fuzzy relational data models, on nearness measures in, 267–298
Fuzzy resolution principle, 181–185
Fuzzy sets, interval-valued, approximate reasoning with, 121–142
Image analysis, for pyramid vision system, 59–85
Inexact reasoning
applicability of maximum entropy to, 1–34
conceptual model for, in rule-based systems, 239–258
Inference network, 245–252
Jeffrey-like rules of conditioning for the Dempster-Shafer theory of evidence, 143–156
Logical inference, presumption and prejudice in, 359–382
Maximum entropy
applicability to inexact reasoning, 1–34
updating, causality and, 87–114
Modus ponens
discrepancy in the implementation of, in the presence of fuzzy quantities, 259–265
fuzzy, interval-valued, 126–130
generalized, semantics and computation of, 195–217
Multiple-valued truths, 49–53
Nearness measures in fuzzy relational data models, 267–298
Necessity and possibility, 37–49
Possibility theory, 35–57
Predicate logic, 367–369, 374–379
Probabilistic evidence, fusion of, 437–466
Propositional logic, 361–367, 373–374
Prototypical knowledge, approximate reasoning and, 157–177
Relevance measures, 163–167
Rescher's plausibility index, extended, 219–237
Resemblance relation, 289–294
Rule-based language, some problems with, 384–386
Rule-based systems, conceptual model for inexact reasoning in, 239–258
Semantics and computation of the generalized modus ponens, 195–217
Sensitivity analysis, in explaining evidential analyses, 299–353

Set logic, 369–373, 379–381
Similarity relation, 282–285
Tolerance relation, 285–289
Truth maintenance system, 400–406, *see also* ATMS
Uncertainty management in a pyramid vision system, 59–85
Valuation-based language
for categorical knowledge, 391–396
for expert systems, 383–411
Vision system, pyramid, uncertainty management in, 59–85
